MEMORANDUM FOR: Chief, Manufacturing and Services Division, ORR

25X1A ATTENTION : [REDACTED] M/MS
THROUGH : Chief, Requirements Branch, Reconnaissance Group, CGS
FROM : Chief, Photographic Intelligence Division, CIA
SUBJECT : Construction Activity Peng Hsien, Communist China
REFERENCES : (1) ORR Requirement No. C-RR5-82,343
(2) CIA/PID Project No. 30382-5

1. This memorandum is in response to the referenced requirement which asks for a search of the Peng Hsien area to verify reports that unidentified new construction or expansion of existing facilities is in progress.

2. A search was conducted within a 25 mile radius of the city of Peng Hsien, to include all of the Peng Hsien administrative district. This search revealed a new industrial facility located approximately eight miles northwest of the city of Peng Hsien at coordinates 31 04N - 103 51E.

The function of the plant is unknown, although it appears to be some type of light fabrication facility. The complex has two probable machine shops, a sub-assembly/final assembly building, a possible administrative/engineering building and other smaller unidentified structures. Construction is underway on a possible steam plant in the southern part of the complex; all other buildings appear to be complete. The plant is not rail-served.

25X1D The facility did not exist on [REDACTED] At that time,
25X1D the land on which the factory is located was being cultivated and the village
25X1D appeared much as it does on [REDACTED] The present plant facilities were
25X1D nearly finished when observed in [REDACTED] and with the exception of the
possible steam plant, were complete by [REDACTED]

3. The photo analyst assigned to this project was [REDACTED], 25X1A
who may be contacted on extension 2547 should you have further questions

GROUP 1
Excluded from automatic
downgrading and
declassification
